## EDUCATION

---

**University of California, Berkeley – Berkeley, CA**

*Bachelor of Science in Computer Science*

Expected Graduation Date: May 2024

Cummulative GPA: 3.90/4.00

- Relevant coursework: Database Design and Management, Advanced SQL and NoSQL Systems, Database Security and Backup

## SKILLS

---

- Languages: SQL, Python, Java, PL/SQL, C#
- Tools: Oracle Database, MySQL, Microsoft SQL Server, MongoDB, PostgreSQL

## EXPERIENCES

---

### Database Trainee

*DataHub Solutions | San Jose, CA | Jan 2023-Mar 2023*

- Assisted in migrating legacy databases to cloud platforms, ensuring zero data loss
- Implemented database backup and recovery procedures, achieving a 99.9% uptime
- Optimized SQL queries, resulting in a 30% increase in database performance

### Research Assistant

*UC Berkeley Database Lab | Oakland, CA | Sep 2022-Dec 2022*

- Developed a prototype for a distributed database system designed for high-availability applications
- Conducted performance benchmarks on various database systems, publishing the results in a technical journal
- Presented a seminar on 'Modern Database Trends and Challenges' to students and faculty

### Database Intern

*NetSolutions Tech | San Francisco, CA | Jun 2022-Aug 2022*

- Assisted in database schema design for a new enterprise application
- Monitored database health and performance using monitoring tools
- Collaborated with developers to integrate databases with web and mobile applications

## PROJECTS

---

### E-commerce Database System

- Designed a scalable and efficient database system for an e-commerce platform
- Implemented security measures to protect sensitive customer data

### E-commerce Database System

- Developed a database system to track inventory and sales for a retail chain
- Integrated the database with a user-friendly dashboard for real-time insights
